

6, Kensington Road,  
Bangalore-7.

12th August 1955.

This is to certify that Sri C. N. Sastry, Inventor Producer, Osolin Research Lab, gave a practical demonstration of 'Specific Bugsac' at my residence.

It was gratifying to see the efficacy of the drug in killing cockroaches and other pests in-no time. It is a matter of satisfaction that a wonderful drug has been invented to get rid of these pests. If this insecticide is used in the poorer quarters, free of cost, it will be a great help to the sufferers.
