## Meali - Sac

**Meali - Sac** is a combination of Natural Herbal extracts derived from food and medicinal herbs coming under the "Ayurvedic Study and Research of Natural Forest Resources".

**Meali - Sac** is an indigenous Herbal Eco-friendly non-toxic & non-poisonous wide Spectrum Pest Control to eradicate Plant pests & Fungal attack.

**Meali - Sac** plays a dual role towards plant protection. The product Eradicates plant pests & acts as a **Systemic Growth Booster** by enhancing budding & flowering, resulting in higher yields.

**Meali - Sac** is tested and certified for Non Toxicity under OECD Guidelines by a Swiss based Test House and certified for quality by IIHR (Indian Institute of Horticulture Research) Bangalore.

## Meali - Sac

### DIRECTIONS :

- Dilute Meali - Sac 1:20 times in water.
- Spray the solution under the plant foliage and to their nodal junction three times in the first week on a bright morning. Repeat the spray once in a week if necessary.

**Meali - Sac** Eradicates plant pests like Mealybugs, Whiteflies, Aphids, Leaf miner, Caterpillar, Golden backed moth etc., & Fungal attack like leafy curl, leaf mosaic & Black band fungus and also promotes sprouting and flowering, as an added advantage.

To control **TERMITES** and other pest menace in lawns dilute Meali - Sac 1:10 times in water & spray closely to the Soil around the area of Termite attack.

**Meali - Sac** is found to be effective against various pests on **Mulberry** plants resulting in safe & non-toxic feed to Silk worms.
