Sub: Non-toxic herbal preparation for the control of bugs,
cockroaches, termites etc.

Dr. C.N. Sastry of M/s. Osolin Research Laboratories, Bangalore gave demonstration in presence of Board Members of his herbal preparations 'BUGSAC' & 'OSOLIN-ATC' for eliminating nuisance from cockroaches, bugs, termites etc., all purpose cleaning agent 'CITROPLINE' and water soluble air freshener 'MANAMOHINI'.

These products have been prepared from herebal derivatives which are non-toxic and non-poisonous to human beings. During the demonstration, Dr. Sastry even applied the preparations to his eyes and consumed a portion of it to show that they are non-irritant non-staining and completely safe for human beings.

Another added quality of these products is that with continued storage the potency / concentration of the products increases with time and after a period of one year storage, when the same product is diluted by hundred times, the effectiveness is still the same, if not better.

These products have been developed by Dr. Sastry by collecting various herbs from all over the country and they are economical as compared to the existing insecticides in the market. In this connection, a copy of Board's letter No.71(C)/11/71 dated 9-1-74 alongwith a copy of GM / Central Railway's letter No.M4(C & W)/S/BB/11 dated 29-11-73 are enclosed. Your attention is also drawn to Central Railway's letter Nos. EW/187/R/465/VIII/III dated 30-1-90 and No.M4/C&W/S/BB/11 dated 25-10-89, copies of which are enclosed for your information.

Dr. Sastry is willing to give demonstration of his products, free of charge, to those who desire to have more-information. Since these products have been found to be very effective, non-toxic and economical in use by Railway Organisations, Ministry of Railways would recommend that extensive publicity may be given to Dr. Sastry's products and full advantage obtained with their use.

(S.M. Singla)

Exec. Director Civil Engineering (G)
Railway Board.
