

ANTI-TERMITE TREATMENT BY OSOLIN HERBAL PRODUCT

a) OSOLIN-AT-CT (Construction Treatment)

The herbal product shall be hand sprayed in foundation bottom & sides without mixing water etc. and applied @ 0.13 litres/sqm. The treatment shall be continued on either side of vertical & horizontal surfaces of footings and upto 0.3M above plinth level. The top of the back fill in trenches and plinth protection shall be sprayed @ 0.13 liters / sqm. Osolin-AT-CT shall also be sprayed over the sub floor (ie before laying sub base) and also before laying the floor topping @ 0.13 litres /sqm.

b) Osolin-AT-WT (For wood pre & post treatment) shall be applied on wooden surfaces by application of brush @ 0.43 litres /10 sqm.

c) Osolin-AT-WT (For mount treatment) shall be applied by mixing 1 litre of Osolin with 15 kg of dry sand poured in to the holes.

Note

The defects liability period of Osolin termite treatment shall be 10 years and the contractor shall be responsible to keep the entire buildings including wood work and joinery free from termite infestation for a period of 10 years after the certified date of completion. OSOLIN RESEARCH LABORATORIES shall produce a guarantee certificate to the contractor for the period of 10 years as mentioned above. During the liability period any defects as regards to termite infestation noticed the same shall be rectified by M/s OSOLIN at free of cost.
