(Attn. Dr. C.N.Sastri)

Dear sirs,

Sub: Supply of Mosquito repellants

Ref: Insecticide spraying/mosquito repellants-  
Demonstration

Our employees had been facing difficulties in working particularly during the 2nd shift due to mosquito menace. The items supplied by your firm namely Bugeac and Pynodor have been tried in our manufacturing and structural assembly hangers for overcoming the mosquito menace. We are pleased to state that the items have been very effective and employees have been relieved of the problem. As an insecticide these items have been extremely helpful in our canteen in erradicating the cockroches, white ants and flies. 'Citropine' as surface cleaner has given us very good results. We are also happy to know that the above items are Ayurvedic/herbal preparations which are harmless to human life at the same time sure remedies against all kinds of pests.

Since we are told that manufacture of these items is seasonal, please ensure supplies of the requisite items in quantities whenever indented.

Thanking you,

Yours faithfully,  
for Hindustan Aeronautics Limited
